

**Sterile Container  
Systems**

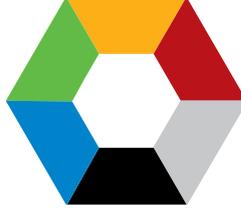

Uzman Cerrahi Aletler / Surgical Instruments entered into service in Samsun in 1996. Besides the production of surgical hand instruments which comprises our general field of activity, we have been also manufacturing various products which we are developing as a result of our R&D activities. We have always attempted to introduce the best product and service to our esteemed physicians over the last 20 Years in the health sector and we shall continue to do. We have almost 10.000 types of surgical product in our production portfolio. Despite we are capable of making model development for the purpose of providing ease of use over the products which we have been manufacturing in line with your opinion and suggestions, we are also able to develop new products by making bilateral negotiations. Besides, due to our technical support under Uzman Cerrahi Aletler's assurance, we also provide repair and maintenance service for your surgical instruments ,without making any trade mark distinction, which are unable to be used and which have lost their function. Furthermore, we enable them to be re-used again. Our Company is the unique company in Turkey whose Technical Service complies with ISO 9001:2008 standard for "the repair and maintenance of the surgical hand instruments" in Turkey. In addition, all surgical instruments within our product range are being manufactured in compliance with various quality processes such as ISO 9001:2008, ISO 13485 and CE.
